

School closure work 24th 25th June 2026

Maths – Collecting data

Ask the people in your household what their favourite holiday destination is. Create a tally chart, pictogram and a table like you have done this week at school! Use your homework books to record the results!

English – Direct speech

Create a script as if you were a playwright! Come up with two characters who are talking to each other. Maybe they are creating a plan, having a disagreement or solving a crime!
