Gospel

Gospel, Mark 4: 35-41

And rising up, he rebuked the wind, and said to the sea: Peace, be still. And the wind ceased: and there was made a great calm.

And he said to them: Why are you fearful? have you not faith yet?

And they feared exceedingly: and they said one to another: Who is this (thinkest thou) that both wind and sea obey him?

Reminder - Gates close at 8.50am

The Ark gate and Exbourne Road gate will be closed and padlocked at 8.50am every morning. Anyone arriving later than 8.50am will need to enter through the Durham Close entrance and will be recorded as late.

The gate cannot be opened once locked.

As the weather is getting warmer please make sure your child brings in a water bottle and sun hat.

If your child has been prescribed medication by the Hospital or GP and it needs to be taken during school hours, please ensure it is given to the school office and not any other member of staff.

Scarlett Fever

Symptoms

- Stage 1: High temperature, headache, a sore throat and swollen neck glands.
- Stage 2: A fine red, raised sand paper- like rash 12-48 hours later which typically first appears on the chest and stomach, rapidly spreading to other parts of the body. It may also cause a strawberry tongue.

On brown and black skin, it might be harder to see a change in colour, but you can still feel the rash and see the raised bumps.

Prevention

If your child develops symptoms of scarlet fever, contact your GP as soon as possible as they need antibiotics. Stay away from nursery or school until 24 hours after the first dose of antibiotics. Wash your hands regularly and cover your mouth when you cough or sneeze.

Exclusion: Children and adults with suspected scarlet fever should be excluded from the education setting / work until 24 hours after the commencement of appropriate antibiotic treatment.

Individuals in the setting with underlying conditions which affects their immune system or specific clinical vulnerabilities, should seek advice from their GP or clinical team.
