"My daughter has been a part of StageAbility for nearly 5 years now. She has loved the weekly classes and has joined in on a few of the shows, too. My family and I have loved watching her grow in. StageAbility has been amazing for her to help nurture her passion for drama and it's also given her a great network of friends." Mrs P. Smith

Dear Parent

Little Musketeers at Christ The King Catholic Primary School | Green Term – Self-Confidence

Little Musketeers are back offering a fun, safe and educational environment for young children to learn the sport of fencing. What child has not grown up pretending to be a swashbuckling pirate, a dueling Musketeer, or even the master of swordplay himself, Zorro? Why do they do it? Because it's fun!

Little Musketeers provide bright coloured foam and plastic foils and plastic masks with mesh visors that are safe and yet hard enough to give children the real feel of fencing. We ensure visors are worn at all times giving peace of mind as well as that genuine fencing experience.

Little Musketeers classes are designed and managed by Olympic fencer and 4 times British National Champion James Beevers. All staff are CRB checked, First Aid certified and trained personally by James.

This term's course will focus on building your child's **self-confidence** as well as working on their **hand, eye and feet co-ordination**. Once the course is completed, they will be awarded with the **Green term** wristband.

We hope you can join us for our 5-week course as follows:

- Monday 18th September - Monday 16th October 2023 / 15:20 - 16:20 / Year 1, Year 2, Year 3, Year 4, Year 5, Year 6

The cost for the course will be **£36.00** per child.

If your child would like to sign up for this course, please visit:

<https://bookings.littlemusketeers.com>

Once there, follow the instructions to complete your booking online. **Places are limited and will be allocated on a first come first serve basis.**

Yours Faithfully

Dr. Adele Diamond, Tier 1 Cognitive Developmental Neuroscientist, University of British Columbia, Canada

WHAT ARE EXECUTIVE FUNCTIONS?

Executive functions (EFs) make possible mentally playing with ideas; taking the time to think before acting; meeting novel, unanticipated challenges; resisting temptations; and staying focused. Core EFs are inhibition (response inhibition (self-control—resisting temptations and resisting acting impulsively) and interference control (selective attention and cognitive inhibition), working memory, and cognitive flexibility (including creatively thinking “outside the box,” seeing anything from different perspectives, and quickly and flexibly adapting to changed circumstances).*

EXECUTIVE FUNCTIONS & LITTLE MUSKETEERS

What does Dr. Adele Diamond say...

"Little Musketeers challenges all the critical executive functions -- including self-control, focused attention, working memory, and creative problem-solving -- in a way that's fun for kids. Kids clearly derive great joy from Little Musketeers; they help and encourage one another, and a supportive community develops; those emotional and social benefits of Little Musketeers work to support the executive function benefits of the program."

"Executive functions (EFs) are critical for success in school, on the job, and in life. EFs suffer if you are lonely, sad, stressed, or not physically fit. Therefore, if we care about academic outcomes, we should care that students feel they are in a supportive community they can count on, that they are happy (even joyful), and that their bodies are strong and healthy."

Drowning is Preventable

Stay safe in the water this summer

Did you know?

- More than **300 people** accidentally drown in the UK and Ireland every year.
- Inland waterways, such as **rivers, lakes and canals**, are where most drownings happen.
- Alcohol and drugs are a factor in almost **one-third** of all UK accidental drownings.
- Anything **below 15°C** is defined as cold water. Average UK and Ireland sea temperatures are just 12°C. Rivers and canals can be colder.

Our Advice:

- If you are in trouble in cold water, remember '**Float to Live**'. Try not to panic. Float on your back for up to **90 seconds** until the shock passes, swim to the edge or call for help.
- If someone else is in trouble - **Call, Tell and Throw** - Call 999, tell the person to float on their back and throw something to help them float, like a throwline.

Safety around water:

- If you are thinking of entering the water, consider your **exit point** before you enter.
- 'Tombstoning' - **Do not jump into open water from bridges or ledges**. There may be hidden dangers beneath, such as sharp objects, reeds and strong currents which could pull you under.
- Avoid swimming alone. **Join a group** if taking part in sports such as paddle boarding or kayaking.
- Tell someone **where you are going** and when you are likely to return.
- Stay clear of the water's edge if you are running or walking. **Riverbanks and cliff edges can be unstable**. Keep an eye out for slip or trip hazards.
- Never enter the water to try and save someone or an animal, **even if you are a strong swimmer**. Call 999 and ask for the Fire and Rescue Service if you are inland. If you are at the beach or near the sea, ask for the Coastguard.
